SBCO: SmartBuilding Co-Creation Organization

スマートビルディング共創機構
SmartBuilding Co-Creation Organization

To develop talent and promote technical standardization in the smart building sector, driving the creation of new industries through data utilization and digital transformation (DX).

【SBCO】
Non-profit general incorporated association
Established 2 April 2025
144 member companies (11 Sep 2026)
Representative directors:
Mr. Takeda (Mori Building)
Prof. Ata (Osaka Metropolitan University)
https://www.sbco.or.jp/

Founding companies

Andeco / schemeverge / SECOM / SoftBank
大成建設 / TAKENAKA / 東急建設 / Panasonic
HITACHI / bitkey / Builpo / MORI BUILDING

Prof. Ashimura

General Assembly

Auditor

Board of Directors

Executive Advisor

Secretariat
Member support

Steering Committee

Standardization WG
Technical standards and guidelines. Delivery roles, governance and IP.

Security WG
Cyber and physical security. Policies, standards and systems.

Information Collection / Analysis WG
Case studies and industry trends. Quantitative benefit assessment.

Promotion WG
Outreach and community building.Training, certification and awards.

Ecosystem WG
Stakeholder value and use cases. Business models and interviews.

Social Implementation WG
Industry, government and academia. Digital platforms and deployment.

Smart Building Data Model and Web Standards

スマートビルディング共創機構
SmartBuilding Co-Creation Organization

Open specifications and tools for interoperable building data

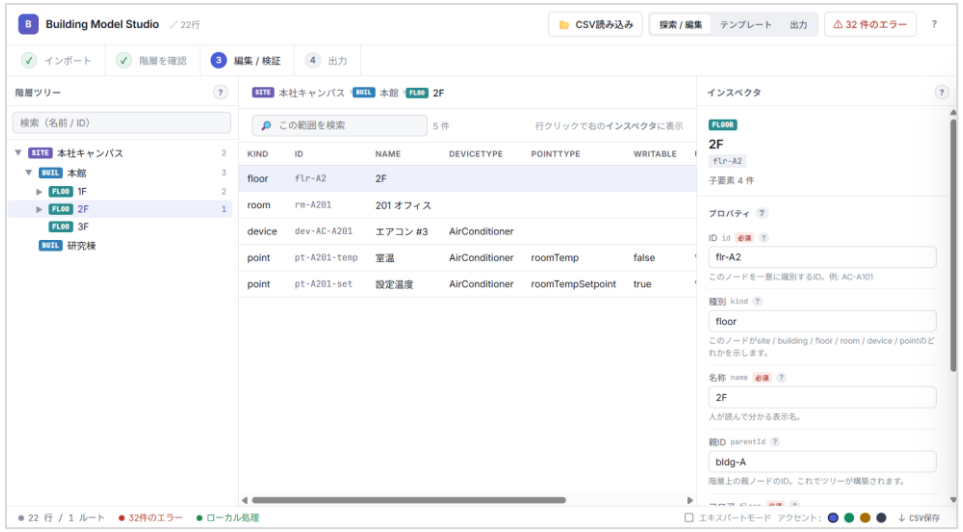

Smart Building Data Model v1.0.0

A shared vocabulary for buildings, spaces, equipment and points
(Aligned with RealEstateCore , Brick)

Smart Building Data Model Builder

Build and validate building data models from CSV point lists.
Edit in the browser and export RDF, JSON-LD or WoT TD / TM.

Proposed W3C / SCIG collaboration

① Exchange views on smart building architectures and use cases using Building OS platforms.

② Discuss RealEstateCore / Brick with WoT descriptions and building-to-city interoperability needs.

③ Introduce the work in SCIG’s Technology Landscape and connect with related organizations.
